Vote & Elect Congress

Dear Voters of Calangute Constituency,

I humbly, with folded hands, thank each one of you for your continuous support, motivation and guidance over the past two terms, in which period we have helped create the required ***infrastructure*** *and contributed to improving the way of life of our villagers.*

However, in the course of the past few years, we have been receiving feedback, complaints and suggestions from the common people of our constituency and from all over Goa. We feel the pain of our villagers due to the rise in the prices of petrol, LPG cylinders, vegetables, pulses, food grains etc. Our ***taxi and rent-a-bike/car operators*** *have also been troubled over the issue of meters, Goa Miles app, cancellation of permits, registrations of office etc with no clear solution in sight. Several people have said that* ***"post-Manohar Parrikar"*** *the direction of the government has changed from being pro-development, improving governance and administration to now polarizing Goans for votes, which was hitherto unheard of in the history of our secular and beautiful Goa. Goa has and will always be a peaceful state respecting all Goenkars irrespective of religion, caste, sect etc.*

After a lot of reasoning, contemplation and thought I decided to join the ***Congress Party****, a national party and not any other regional based party from Delhi or Bengal who have no history or connect to Goa and who are buying MLAs, Leaders by offering them large sums of money.*

I joined a party which is currently heavily hit with defections, abandonment and now there remains just a single MLA but this party has contributed to ***Goa's liberation*** *and has helped in its growth and development over a long period of time and we cannot abandon her.*

The Congress Party currently is like a proverbial ***phoenix*** *and we believe that the people of Goa will come together to resurrect it, ignoring all the new parties with absolutely no history in Goa, who are here only to divide the votes to help the BJP.*

We believe that the People of Goa will ***UNITE*** *and give their mandate to the Congress Party by voting for the Hand. The phoenix gives mankind hope and urges us to fight on and never give up. It asks us to keep up the human spirit and with this very spirit we can vote for the Congress to bring a change in government. The Congress Party is the party that can fulfill the dreams and desires of the common people of Goa. The Congress is a very seasoned party which has worked for the independence of our country and after independence, laid the foundation for a very strong India.*

I am sure and confident that you will stand by me this time as you have done in the past, to carry out all the ***pending works*** *for our Calangute Constituency and our beloved Goa.*

Thanking you,

Michael Vincent Lobo
